Dear Parents/Carers,

Re: Y6 Enrichment activity

Our Y6 children have the opportunity to participate in an exclusive and innovating project alongside other Y6 children in our DELTA family. As the Vulcan XH558 aircraft now starts the next chapter of its life, with the creation of a new home where this iconic Aircraft will be displayed, it will be used to inspire and educate future generations about new and green technologies.

Our students have been invited to create models of the Vulcan XH558 to form part of a display at the new Vulcan Experience Building. These models will be secured as part of a permanent display at the Vulcan Experience Building with a plaque with the school and student's names on.

The initial launch day for this fantastic project is Friday 23rd September at DELTA's Education House in Knottingley. Our children have been asked to attend the event which will take place between 10am and 2pm. Transport will be provided.

Children should arrive at school for 8.30am as we will be leaving promptly at 8.45am.

Please complete the permission slip below appropriately enabling your child to participate. Lunch **will not** be provided so a packed lunch will need to be sent to school with your child. If you require a school packed lunch, please inform the academy using the slip below.

We are very excited for this event and cannot wait for the project to begin!

Yours Sincerely

Jemma Reeder

Class teacher

Please circle the applicable answer.

I do/do not give permission for my child to attend the Vulcan XH558 launch day event at Education House on Friday 23rd September 2022.

I do/do not require a packed lunch to be provided.
